## About 4th Bihar Social Science Congress

Bihar Social Science Academy (BSSA) organizes the Bihar Social Science Congress (BSSC) every year with a view to discovering, developing and disseminating the science of “Nature-Human-Society” through intra, inter and multi-disciplinary appraisal and integration of current research and theory in all subjects of science. Its main objective is to drive a new debate in the field of social sciences, which includes all those ideas that expound the interrelationships of science and society. All subjects/disciplines of the science of Nature- Humans- Society is represented in the Bihar Social Science Congress. In this congress, 29 Subject Research Committees and 26 Interdisciplinary Thematic Panels on contemporary topics are working. The Congress aims to make India and its people creative, self-reliant, prosperous, healthy and happy while living in peace and harmony with Nature. The main aim of this congress is to promote science in regional languages.

## Focal Theme: Science, Society and Development

There is a mutual interrelationship between science and society. Self-reliance and co-existence prevail between the two. The production and development process begins with the mutual influence of science and society. After the prehistoric discovery of the method of controlling fire, the Neolithic Revolution increased the available sources of food. The invention of the wheel made man's travel easier and contributed significantly to controlling the environment. The use of science contributed significantly to the development of society and humanity. The printing press, telephone, internet, airplane, rocket, spacecraft, etc. contributed significantly to facilitating social development and communication in advancing the global economy and developing new ways to use natural resources for the development of humanity. Digital technology created history by entering every process of social system development. The use of science and technology has not only led to the exploitation of natural resources but has also created a huge problem of pollution.

Along with the development of society and humanity, science has presented before us the challenges of social values and bioethics. Today, the competition for productivity efficiency has raised serious questions on the ethics of science. Today, there is a debate going on in the world about whether science improves the condition of social development or makes it worse. However, in today's era of very fast change, the issue of social development through the use of science has become very relevant and the center of serious ideological debate all over the world.

## **Rosera and Nearby Places:**

1. Rosera is a Sub-divisional town on the bank of the river Budhi-Gandak. It is well connected by the rest of the country through railway and road network. It is 30 km from the district headquarters Samastipur and about 110 km from capital Patna via road. Rosera is connected to Begusarai (30 KM) via SH 55 and Darbhanga (45 KM) via SH 88.
2. There are 02 constituent degree college, 03 affiliated degree College, 11 Inter college, one constituent B.Ed. college and 01 affiliated B.Ed. College situated in Rosera Sub-District.
3. **Vidyapati Nagar:** Vidyapati Nagar has been named after the famous Maithili poet Vidyapati. According to beliefs, the legendary poet in his search of Ganga, breathed last at this place. Vidyapati Nagar is 30 km from Rosera.
4. **Kanwar Lake (Jai Mangla Garh):** This famous lake is 15 km from Rosera. It is spread over nearly 7,000 hectares; the lake has served as a destination for migratory birds and was home to several aquatic species. It was first declared a protected area by the State government in 1986, and later, a sanctuary by the Central Government, to prevent the poaching of birds.
5. **Karpoori Gram:** It is the birthplace of Freedom Fighter, renowned socialist leader and ex-Chief Minister of Bihar Bharat Ratn Karpoori Thakur. It is about 40 km from here.
6. **Kusheshwar Sthan:** Kusheshwar Sthan is a famous place for pilgrimage. This place is associated with Kush, a son of Lord Ram. There is an ancient temple of Lord Shiva here, which is called Ramayan regim. This place is about 42 km from here.
7. **Ahalya Sthan:** Ahalya Sthan is also an ancient and famous religious place about 85 km from Rosera. It is believed that here Ahalya, who was turned into stone due to the curse of Maharishi Gautam, was saved by Ram. The temple, in its present structural form was built between 1662 and 1682 during the rule of Maharaja Chhatra Singh and Maharaja Rudra Singh. This is also the first Ram Janaki temple in India.
